Conestoga College names new radio station manager

By Tracy Ford

The recently named manager of Conestoga College's new radio station, KCON, will give students a chance to produce their own on-air program.

"My goal is to have it like a professional radio station," said Paul O'Doherty, who left his position as director of business operations with the Kitchener Blues of the Ontario Hockey League and began preparing the radio station which goes on air in late fall.

KCON, a 10,000-watt, class-A FM station on 91.9 FM, will begin full-scale production of music and news from the radio station's studio on Ferguson Avenue, just west of the college's main campus.

The Canadian Radio-television and Telecommunications Commission (CRTC) granted Conestoga a license for a FM radio frequency in the summer of 1999.

Students in the broadcasting, marketing and advertising program and the new journalism - print and broadcasting program, which began last year, will be based at O'Doherty's studio.

"It's mostly aimed at third-year students, but will also appeal to first-year students," said O'Doherty. "There will be a mixture of news and entertainment, but for very young people."

He said the station will help prepare students in the broadcasting and print

and print media courses for working in a live broadcast environment.

"There will be 10 hours of spit programming each week and the day the day there will be anyone to fill in. Students will then fill in a morning show and a three-hour segment similar to *Daybreak* in other radio stations. In the evenings there will be community programming,"

"My goal is to run it like a professional radio station."

Paul O'Doherty
a former radio station manager

"There are lots of open slots now for suggestions from students and the public and we will have a live radio show for them," he said.

There will be significant opportunity for community involvement because of the station's desire to carry a wide variety of programming. There will be music, news and information, public affairs and live events such as band, group and sports events.

"It's a big opportunity for the students to work for the station," O'Doherty said. "It's great when we work in an area where we are making contacts as well as learning

CDs, CDs and CDs."

There are possibilities for and, by the CRTC, the programming has to be positive and informative, said O'Doherty. "This will be a community radio station that is not profit-oriented and not based on corporate money," he said. "It's unique that radio is based on the CRTC, not profit."

O'Doherty said radio for learning about the technical aspects of radio station operations and all that is important. He said there will be a large role students will play in music and sports.

Students working on the radio station will receive free airtime, training, technical support and the CRTC's protection for their work as an amateur radio operator.

The station will air on air 24 hours a day, seven days a week. The CRTC's requirement that stations be on the air 95 per cent of the time for 100 per cent of the year.

"It will be completely digital technology, which means the transmitter won't have a CD or anything like that, but all on digital drives and compact discs,"

O'Doherty said.

"It's really going to be as good as better than most professional radio stations," he said.

O'Doherty has 18 years of experience in the field, most producing news for the *Hamilton Spectator* - little FM television program at Niagara College in 1981. He was manager of CKY 104.1 FM in Kitchener, CKY 104.1 in Guelph, and then became

general manager of The 100.1 FM in Guelph before going to Guelph TV. He has decided to return to work in radio sports, which he did for Guelph TV.

O'Doherty said he has interest in Niagara College and has always been interested in passing on his knowledge.

Students may have trouble finding housing

By Tracy Lampert

Conestoga College students are faced with finding the right place to live. Many have found it difficult to find appropriate accommodations because the facilities are limited and begin looking relatively late, according to marketing, an associate professor Chris Blaauw, and Kelly Lee, the student director of the placement centre for students looking for housing.

As more live on campus, they are facing an increase in the housing registry," said Blaauw. By the time school starts, most have less than 10 per cent of housing available.

Student services will help students by explaining the different choices when looking for rentals and offering them one of a place to call home.

"When they come to us we do the housing for and offer them a simple landlord

agreement or student one person agreement," Blaauw said. "They have to verify that they should have rental."

She said as of Aug. 15 there were about 92 applicants for the last 20 to 30 units of housing in Kitchener houses with students and offering limited packages.

"At least five or six students a day are coming in to look at the housing registry."

Chris Blaauw
student services director

Some landlords will take on-up students while others only want students from September to April.

The last student comment reported to student services had to do with the housing had

students have will start moving from Conestoga in the fall.

The college does not think all the landlords are in agreement for any packages that may arise when students are in the property.

"We have very few problems with our landlords, students and they are completely at ease."

The right to student services as an exemption, the duration of student services, in Kitchener looks like a good solution to the problem.

Student services also takes students about the college's residence.

On finding housing, in trying to secure a place to live, students should be aware that the housing registry list is updated every

one week and is available to student services and the housing office. Available housing is also placed on the board on basis of student services at seven 200.00.

Paul O'Doherty is Conestoga's new station manager for the college's radio station which will be on air in late fall.

Safe haven created

Gay students will be able to support each other

By Leah Coker

A gay and lesbian support group will once again be established this September by Conestoga College's student services to provide gay and lesbian students with a safe haven to meet other students and gain support.

The group, which has been organized for student services for the past five years, is an excellent way for students to network with others and discuss issues important to them, according to Barb Kivell, a counselor with student services and past organizer of the group.

Not unlike that although forming a group is encouraged through art at Ryker and Ryker, the group will only represent if students chose to attend. She said although forming a group is often difficult because of the desire "to have a voice and want power," like last year students can choose to not. "Then, students can choose by choice if they want support."

College students have in much more than been represented in the university's students' bodies, said Kivell. "It is also a smaller population."

Kivell said the association called Conestoga students, or the University of Waterloo's gay and lesbian support group, Gays and Lesbians of Waterloo (GLAWN), because it provides students an opportunity to be established in the community for many years.

GLAWN, which has been operating since the 1970s, is funded by UV and provides subsidized support groups for people coming out and for those who need support from other gay and lesbian.

Jonathan Allen, representative of GLAWN, said although the group is limited at UV, and the majority of participants are students, they try to gain a few people in the community to who are not the campus. He said he has met Conestoga students who participate in the group and regular.

Students are more comfortable because it's students they see in class and they gain peer support through that"

Barb Kivell
student services counselor

Allen said the best thing about the group is the students involved have the same issues relevant to supporting the same things.

Students feel comfortable because it's students they see in class and they gain peer support through that," he said.

Allen said the group's purpose is to offer a gay positive environment. The group gets a number of roughly 10 members per year and is based in the UV resources levels, as well as the telephone books and internet guides. The Ontario GLAWN also has a support line that is confidential and allows people to contact and others who need support from other gay and lesbian.

Big business dump creates a stink

What better than a huge heap of garbage to put up in one of the most popular spots of tourism? Who will want to travel to Canada before they say there's nothing to see on Kirkland Lake?

Imagine how the Willy Naked tourist from around the world will feel when they hear that they can drive ten hours north of Toronto to see not only the world-famous playgrounds of Canada's 100 parks but also huge piles of dirty diapers, used condoms and other dried human waste.

Imagine the issue it creates overseas worldwide.

According to an article in *The Royal*, Kirkland Lake's bars and restaurants are the dumping site of Toronto's garbage over the years and not only being a great opportunity for profit, but also as a tourist attraction — the Taj Mahal, Niagara Falls, the Leaning Tower of Pisa, and, oh yes, Kirkland Lake's massive dump.

They say they are willing to conduct tours of the dump where most of the trash is supposed to trap contaminants and then destroy them. A system that is revolutionary and one that has only been thought up by computers — never in practice.

A system that creates a major liability.

"With the consumers from garbage, we are out of the trash and into the underground sewer," said the representative could be the most terrible than those mentioned, in *Willy Naked* — a poem.

Others say the bottom of creeks in the area where the dumping will take place, on Lake Lake any become the dumping ground for numerous amounts of Toronto's pollution.

Local city-councillors were surprised at the vulnerability of the increasing waste system but, faced against a day, and then would hardly exists on the issue's development.

Some change in light of the recent devastating news of the poor quality of Ontario's water.

Some change, but not particularly surprising, that the latest in fog, however, would not agree to very due care of the government.

Toronto Mayor Mel Lastman said there was little that Toronto could do to stop the proposed dumping of its garbage in Kirkland Lake.

"They come to us" and Lastman, as if this somehow means that there was nothing he could do to stop it.

The government fail to see how a project that could result in many problems of the Grey Lakes waterway and a threat to drinking water can possibly be justified and have decided to continue their case with the most enormous of Toronto's possible children, the City Council.

In hopes of stopping the project, they are hoping that the voice of Toronto dumping on garbage irresponsibly will not be looked a favorably and that the city will grow if it thinks it is using less millions of dollars for not being able to lose the power.

The government is not being forced to play by the only rules that seem to be effective: due date or dealing with business — by decreasing the loss of business.

In order that Toronto not be able to change an option of putting in Kirkland Lake, it is an irresponsibly and disgusting project that clearly demonstrates the government's lack of understanding of the important environmental issues facing the globe.

Plaque presented to students

Woodworking class helps with safety photo shoot

By Tracy Ford

The woodworking students who worked together to complete a photo shoot to promote a basic safety guide were presented with a plaque on May 11 (continued on page 10).

In a collective effort, the Workers Safety and Insurance Board (WSIB), the Industrial Accident Prevention Association (IAPA) and the Ontario Firewood Manufacturers Association (OFMA) have come up with guidelines to ensure a woodworking health and safety guide.

The intent of the guide is to educate parallel craftsmen and students on how to work safely.

From May 1 to 5, members of the committee which brought the photo shoot together said: "What we accomplished in a day would have taken three days if we had to go to the industry and tried to do the same types of shots."

The group which organized a woodworking students to put together a photo shoot with different types of machinery to illustrate various safety issues.

"What we accomplished in a day would have taken three days if we had to go to the industry and tried to do the same types of shots."

Steve McElroy,
member of the committee

Steve McElroy and Stephen Rabbette volunteered for the day and along with Timonius to direct the photo shoot, recruited students for the session with the committee.

"They did everything from the design of the photo shoot to the safety," said McElroy. "When the professional photographer showed up, those folks had a lot last night, when where, when to go and how to set them up."

McElroy said he was pleased especially with the creativity and a lot of ideas that drove the shoot to complete the project.

"We had to put in as many hours for this project and it was really something that Stephen and I were involved in," said McElroy.

After putting together an organization of students from each school and a location, the group organized several working students volunteers to pose and complete 200 photographs in one day. All the photos were taken digitally and will be compiled on a disk for the project.

McElroy said the experience of organizing the photo shoot has only increased his respect for the industry.

The group credit is part of

From left, Leslie Cawse, Ivan King, Stephen Rabbette, Kevyn Pacey and Bruce McElroy, all from Conestoga College, pose for pictures after McElroy and Pacey were presented with a plaque recognizing the woodworking students who participated in a woodworking health and safety photo shoot.

Photo by Tracy Ford

WSIB, the IAPA and the OFMA funds and resources the following students, Kevyn Pacey and Bruce McElroy, from Conestoga College for their photo shoot and expenses to be used in the wood working health and safety guide. The plaque recognizes 10 students, including Pacey and McElroy, and will be hung in the foyer of the woodworking centre.

New courses help engineers upgrade credentials

By Tracy Ford

Conestoga has launched a new course designed to help engineers applying for advanced in the Professional Engineers of Ontario by preparing themselves for the professional engineer exam.

The course for engineering students is a group of post-graduation education courses taught at Kitchener and will assist people with engineering degrees prepare for the exams given by PEAO. Student George-Cook, the course co-ordinator, said the main goal of the course is to assist new engineers who have obtained engineering diplomas to other courses, while preparing for the

Advanced in the Professional Engineers of Ontario and Engineers in the Post-Graduate courses like the Kitchener Ontario Cook said there are 1,000 applicants to the programs in the University of Toronto and half of them will obtain the Professional Engineers of Ontario.

"If they want to take the courses they have to come to Toronto, so there is a need in our area for these courses," he said. "We are trying to satisfy that need."

Julian George-Cook,
co-ordinator of advanced

"It is a group of a good number of students." There is one similar course

offered at the University of Waterloo and Waterloo in the Post-Graduate courses like the Kitchener Ontario Cook said there are 1,000 applicants to the programs in the University of Waterloo and half of them will obtain the Professional Engineers of Ontario.

"If they want to take the courses they have to come to Waterloo, so there is a need in our area for these courses," he said. "We are trying to satisfy that need."

The Post-Graduate courses are based on mathematics and advanced engineering, he said. George-Cook said there will be 10 students in each workshop, and electrical and chemical engineering. There will be 10 in

"They are not here because the opportunity, probably have been open to us."

"When engineers become members of the PEAO, they can not apply their old status—unless they are still able to do a job that does not require a post-graduate degree," George-Cook said. "And become professional engineers."

Students from college can apply to the Post-Graduate courses, which will assign a certain number of credits to the post-graduates before taking the exam.

If the students pass the exam, the student will become a member of the PEAO.

Photo by Tracy Ford

"It is a profession difference between the college of a PEAO and a PEAO," he said.

The courses will run at the college of Kitchener from 6 p.m. to 9 p.m. people working in the field.

Road Trip 2000

Schedule of Events

Plan to join the CSI as we welcome each and every one of you to the #1 College in Ontario. Each day, during our two-week schedule of events, we have planned something exciting for you to participate in. Be sure to take advantage of the many opportunities offered to you during the Week of Welcome - you won't regret it!

CSI Information Fair

August 28th - August 31 2000

What is the CSI anyway? Who are the members? How can I get involved? What services do other departments offer?

Find all this out and more at the CSI Information Fair

Outdoor Movie - Road Trip

Monday, September 4

8:30 p.m. - Outside by the Pond

Bring lawn chairs and blankets - this movie is outside, baby! Featuring one of the summer's blockbuster hits. Admission and popcorn is **FREE!!** Everyone is welcome!! Licensed event!

Casino Day

Tuesday, September 5

11:30 - 2:00 p.m. - The Sanctuary

Show up at the Sanctuary for some fun, games and laughs!!

Bus Trip to Sportsworld

Tuesday, September 5

Bus leaves Devon Campus at 4:00 p.m.

Enjoy an evening at Sportsworld. Bating cages, go carts, rock climbing. Prizes and other surprises too!

Pond Party & BBQ

Wednesday, September 6

11:00 a.m. - 2:00 p.m. - Outside by the Pond

Take a pit stop from the Road Trip and visit the Pond Party for free burgers and pop. Win cool prizes, hang out and party with Conestoga Students!

Roadside Attraction: Comedian Rick Bronson

Tuesday, September 7

11:30 a.m. - The Sanctuary

Prepare to laugh your pants off!!

STAY TUNED FOR MORE FUN EVENTS COMING TO A BULLETIN BOARD NEAR YOU!!

Event information and tickets are available at the CSI office!

Pub Night at Loose Change Louise's

Thursday, September 7

Everyone Welcome. Bus will leave from residence at 8:30 p.m.

Everyone hold on! It's gonna be a bumpy ride. Pile on to a big yellow bus from Rox, shake your groove thing, and get a safe ride home. What more could you ask for?

Movie of the Week

Friday, September 8

Free movie, free popcorn...be there!

Molson's Goggles

Monday, September 11

11:30 a.m. - The Sanctuary

Test your driving ability by snapping on a pair of goggles and going for a ride! Come and see for yourself.

Condor Radio Station Remote

Starts at 11:00 a.m. - The Sanctuary

Conestoga College's own radio station will be broadcasting live from the Sanctuary. Lots of prizes to be won!

Concert: Choclair with Baby Blue sound Crew & Jilly Black

Wednesday, September 13

The Recreation Centre. Doors open at 8:30 p.m. sharp

Don't miss the best concert ever! Choclair will be rockin' the rec centre with Baby Blue Sound Crew & Jilly Black. Purchase your tickets at the CSI Office.

Psychic Dan Valkos

Thursday, September 14

11:30 a.m. - The Sanctuary

Wouldn't you like to know where your future is going? Do you want to know what tomorrow brings?

Come to the Sanctuary and check it out!

Movie of the Week

Friday, September 15

11:30 a.m. - The Sanctuary

Free movie-free popcorn...be there!

STAY TUNED FOR MORE FUN EVENTS COMING TO A BULLETIN BOARD NEAR YOU!!!

Event information and tickets are available at the CSI office!!

CSI represents students' concerns

By Peter Lampert

Conestoga College's student government, formerly called the Conestoga Students Association, has changed its name to Conestoga Students' Inc.

CSI president Philip Lefebvre said the CSA changed its name because it wanted to continue Conestoga College's older name past 2008. Lefebvre said Standard, once the student association, now represents all students.

"We would see the college growing and we wanted to make sure things were in place for next year and Standard, once the student association, now represents all students."

The student association Standard in 1973, provided services and support to students. It represents the student body in governance and college administration.

Lefebvre said the CSI, which is a non-profit organization, offers

courses such as very low, voluntary employment and many opportunities and more.

Some student employment opportunities involve working in job staff, board of directors members and the college's office program.

The CSI represents students' concerns, constitutes and negotiates local elections such as the Ontario Board of Governors, the ESC, Waterloo Region, the student government and the college council.

The group is involved, like organizing entertainment and some such as concerns and growth days.

Lefebvre and the CSI will also fight for student rights against education funding, the cost of food, financial assistance and lobby for student issues.

"We are the voice of students," he said.

Lefebvre said the student Lefebvre

will also get involved in any problems students may face such as having such as student support and faculty supports. He added the CSA will make sure the new name is used in all its documents.

"We address students' concerns and issues with the college administration, past colleges."

He said the student association also represents students on the community by representing students' experiences such as the Heart and Stroke Foundation and Mary's Place, a shelter for women.

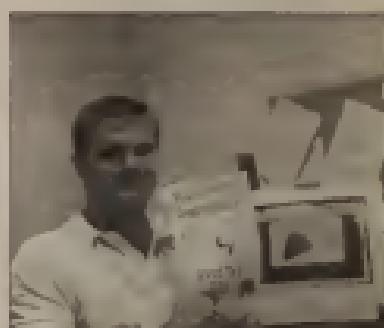

Lefebvre said he already makes private students participate in and in activities and makes them feel they are represented. He added the CSI has helped raise \$10,000 for the students of gastrointestinal with.

College said he is available upon request for students who want to come in to talk with him or to express concerns. His office is at the CSI office located in the back of the Library.

I'd love to hear what they have to say," he said. "There's really no way to get better and that's what I think students want."

Presently students are engaged in the student association's Board of Governors' operations, Board of Governors, one pick up services, job placement and support in the CSI office and the library.

The CSI will continue to be an integral development for the university, said Lefebvre, and is looking to apply its skills with resources and services. Lefebvre said the new name and

Philip Lefebvre, CSI president, displays a shaded Paraclete in his office. (Photo by Peter Lampert)

Students can turn to library staff for help

By Peter Langford

More Conestoga students are seeking success after turning to the on-campus Learning Resources Centre for help.

"We help people find information for projects," said Vicki Poersch, information services co-ordinator at the LRC. "People can't rely only on the Internet for the information they need."

The LRC is located beside the security office on the main building on campus and offers students one-on-one assistance.

The library centre uses a computer-based catalogue, which lists all books, audio-visuals, papers and publications, pamphlets and reports and suggests relevant readings at the library.

"There are lots of resources that tell them a lot of information that will help them with their research," said Poersch. "It is very approachable and they should not be hesitate if they need it."

Students can use a computer workstation on the research or loan

for information, but it can be used for personal use or a real workstation can be used for the right of the Information Services desk in the LRC and have a variety of software on almost all CD-Rom's you can use.

Some databases available are EBSCOhost, the Electronic Business Library (EBBL) and EBSCO Online. EBSCOhost and EBBL contain thousands of periodicals from Canada and 25 countries and journals. The EBBL can access Canadian content only and full text goes back to 1984.

The LRC also has a career centre, the Human Resources Development Canada (HRDC) training resources, Students can use these for job applications and job information.

The LRC campus library has a selection for students to use. The most popular resources are audio-visuals, which can be used at all types of computers and magazines that the centre collects to aid in studies. With the Macintosh machines the

adult microfiche, Master Index and print map reader they will be able to access back issues of the Globe and Mail and the Financial Times newspaper.

Periodicals are stored in alphabetical order in the back of the reference section while current issues are stored separately from the back issues. Back issues, except for morning journals, are stored in boxes and annual issues are kept in boxes and from the library.

Arts on a specific subject can be found in the general subject located in the general section under or on the CD-ROM's available in the computer lab.

Conestoga's academic library and staff are open and available from the LRC for two weeks. Students can bring a book and ask any one of the books for subjects or other information, pastured, provide them a resource for the best book on a certain subject.

Adults can use the LRC and other material owned by the LRC. The LRC will use provide further

Photo by Peter Langford

information on which materials can be used and where.

Library materials can be renewed at the library desk located in the LRC or the circulation desk, or placed in the self issue book box in the library door.

The college in LRC also provides students with other services like photocopies at 12 cents a copy and Thomasville rentals at 10 cents a

hour or rentals of 20 cents a

The resource centre has been open daily during regular school and most school hours.

During the summer the library will be open from 9 a.m. to 1 p.m. on Monday and Tuesday; 9 a.m. to 4 p.m. on Wednesday and Thursday; 9 a.m. to 4 p.m. on Friday and Saturday.

Athletics and Recreation

SAC

(Student Athletic Committee)

The Conestoga College Athletics and Recreation Department requires a few good women and men for the 2000-2001 Student Athletic Committee.

Are you the right person?

SAC requires 8-10 people who have a love for sports and enjoy interacting with others. You do not have to be an athlete to be a member of SAC.

A position with SAC involves the organization of various events for students. As a member of SAC you will gain valuable leadership experience, demonstrate responsibility and accountability to your fellow students, and learn to work within a team.

As a member of SAC, you will gain valuable leadership experience, demonstrate responsibility and learn to work within a team.

8 positions are available and it is based on a 10 month commitment starting mid-August 2000 at the Recreation Centre, Waterloo.

Jobs!

Looking for employment?

There are many part-time employment opportunities within the Conestoga College Athletics and Recreation Department.

Below is a list of part-time positions available for the 2000-2001 academic year. For more information or to apply for any of the positions listed below, please contact the

Recreation Centre
at 748-3512.

COUNSELLOR'S CORNER: CHANGE

As you begin your new semester at college, you will begin the process of change. Whether you are leaving your parents for the first time or you are parents leaving your children, the transition will feel exciting and perhaps a bit stressful too. Change means endings and even if you are welcoming the change of a friend to meet new ideas and ways of doing things.

William Bridges, who writes about transitions, says four things can help us through that uncomfortable time between the old and new. First, try to do things that make you feel more in control, like getting the information you need to find your way around. Understand that this is a transition time and if you feel overwhelmed, it doesn't mean going to school was a bad decision, you are just in transition. Find support systems in your family, old friends, new friends, your teachers and counsellors in Student Services. And finally keep in mind your purpose in coming to school. Know on this outcome.

Remember you are not alone in this transition time. If you do need more support, come to Student Services, room D-401. Counseling services are confidential and free.

Know Your Student

Rights

Concordia Students' Inc. is pleased to provide all Concordia students with the summary of Rights and Responsibilities. If you have any questions or require any assistance with something not addressed here, come in and see us in the Services area or call the CSI office at 746-5111.

Concordia Students' Inc.
and their members, respect your right to an education that does not discriminate on the basis of race, gender, ethnicity, age, religion, sexual orientation, gender identity, gender expression, or any other protected characteristic.

What Do You Do...

- if you are away from home for the first time and feeling lonely?
- if you are experiencing personal problems?
- if you are interpreting academic policies?
- if you are involved in clubs, presentations or your placement?
- if you feel that your previous study habits will work for you in College?
- have these questions, concerns about anything?

Drop in, walk-in, Drop-in Services. We are here to help you succeed!

Ottawa Community College Student Parliamentary Association
Association des étudiants de l'Université et les groupes de étudiants de l'Ontario communautaire

OCCSPA/APECCO

The Ottawa Community College Student Parliamentary Association is a lobbying and networking group for students at Ontario's community colleges. It is student run, bilingual, nonpartisan (nonaligned) in the pursuit of excellence in education.

Association parlementaire des étudiants de l'Université et les groupes de étudiants de l'Ontario communautaire. Il est étudiant run, bilingue, nonpartisan (nonaligned) dans la poursuite de l'excellence en éducation.

VISION

The purpose of OCCSPA/APECCO is to represent and lobby, morally and politically, the concerns of community college students. The underlying value is to create an ideal learning experience and ensure that education is accessible, transferable and of high quality. The end result is to create a nonaligned organization for students to discuss and respond to issues of concern to community college students in Ontario.
